

## INTERNAL MEDICINE, ACADEMIC ROLE - Western NY at Catholic Health

Are you being called to help others? Would working in a site which provides care in a comprehensive center including primary care, pediatrics, imaging and lab be the type of site you desire? What about being an integral part of teaching the next generation of physicians? All in one role? Your dedication, your wisdom and your service is needed.

### **Catholic Health has an opening for a Board Certified Internal Medicine Physician.**

The Mercy Comprehensive Care Center in Buffalo, NY is seeking a physician who wants to make a difference in the lives of patients, their families, colleagues and residents. It was founded on the premise of serving the sick, serving the poor and educating by the Sisters of Mercy in 1858, back when the Sisters began serving the community out of St. Brigid's Church, where this site now stands. Catholic Health in Buffalo opened this comprehensive medical center as a beacon of hope in this community, and it has been just that for almost a decade.
